☐ Environmental Sensitivities?

☐ Do you have dietary preferences or food allergies?

When you come to our farm you are joining our family. We are looking for people who have a light relationship with alcohol and marijuana and who have recently had minimal contact with heavier drugs. While we respect individuals' right to recreate and experiment in a way they find meaningful, if you have now or have recently (In the last 2 years) had a lot of involvement with heavy drugs and alcohol then this won't be a good fit. We appreciate your honesty in looking at this issue.
